TO WHOM IT MAY CONCERN:—

The Springhill Nurseries also trading as Bohlender Nurseries Company was established here in 1849. The company is now owned and operated by THOMAS AND HOWARD KYLE, grandsons of the founder.

They are young men of excellent character and ability. Both have grown up in the nursery business and under their management the nursery continues to enjoy the confidence and good will of the trade as evidenced by the marked increase in volume of business during the past few years.

Their accounts and obligations at this bank have always been taken care of in a prompt and satisfactory manner; we are pleased to recommend them.

Yours very truly,

# Dear Friends and Fellow Gardeners

Spring Hill Nurseries is a 97 year old, family owned and operated business, of honest values and fair dealings. We grow most of our stock and sell direct. We're proud of our long established reputation of reliability, progressiveness, financial responsibility and low prices. By hard work, careful planning and know-how experience, Spring Hill offers one of the most complete stocks of hardy plants in America for 1946. It will pay you to shop this book. **ORDER EARLY!**

Gardening or tilling the soil is one of the most important of present day activities. Gardeners are rewarded with satisfying joys, peaceful pleasures, good health, economy and security from increased living costs.

Better Plants for Your Home and Garden is our Business. Spring Hill pledges ever-increasing efforts to give you better merchandise for less money. Fortunately, by growing most of our plants, we can offer pre-war quality at moderate prices.

We hope the pictures shown on this page will help you to know Spring Hill better. You can shop by post or call for your order. Guaranteed Satisfaction is our Motto. Buy with Confidence. We appreciate our many friends as our most valuable asset. Thanks a million for your patronage.

Sincerely,

TOM & HOWARD KYLE

**ORDERS ACKNOWLEDGED** We acknowledge all orders by postal card when received. When we ship your order, your original order sheet will be returned to you with the merchandise ordered, for checking. **IN EVENT OF ANY ERROR, CLAIM OR ADJUSTMENT** it will be necessary for you to return your original order with your letter. If your order is not filled completely you will be advised whether or not balance will follow later or amount of any shortage refunded to you. Remember we will be unable to correspond with you about an order shipped without having your original order returned to us.

**HOW TO ORDER** Use enclosed Order blanks pages 8A and 49A. List the variety of plants you want, state catalogue number, size and price of each item you order. Be sure to specify **DATE** you wish your order shipped. Every order carefully packed in sphagnum moss, the most expensive and finest material for shipping and protection. Shop by mail in the comfort of your home; —or drive to the nursery.

**ORDER EARLY** Don't Wait—Unlike many other things one buys—nursery stock should be purchased early. Shipping season is a relatively short time and help will be more or less limited for a time, therefore to get the full advantage of the execution of your order make your selection when you receive the catalogue. Your order will be promptly acknowledged and shipped at proper planting time for the section in which you live.

**TERMS** Our terms are cash with order, money order should be sent by check, postal money order, draft, express money order or registered mail. (Due to shortage of experienced employees we cannot accept C. O. D. orders.) All packages too large for parcel post shipment are sent express collect.

**IMPORTANT—PLEASE ADD POSTAGE** (Transportation Notice)—When nursery stock or plants are to be shipped by parcel post, **PLEASE ADD 10% FOR PACKING AND POSTAGE.** This enables us to give our customers the lowest possible selling price for first class, government-inspected stock. If you do not include postage charges your order will be shipped express collect, or if requested we will bill you for the parcel post. Most orders of \$3.00 or more can best be shipped by express. Ohio customers please add 3% sales tax.

**GOVERNMENT CERTIFICATION** All of our stock is state inspected and each order carries Inspection Certificate.

**PLANTING INSTRUCTIONS** Complete planting instructions are sent with each order. This is a service that will make it easy for you to get the best development from anything you buy of us.

**WAR STAMPS ACCEPTED** Mail war stamps in payment of your plant order from Spring Hill. Many people feel the importance of purchasing war stamps. We will accept these in payment of your order. In that way Uncle Sam will have the money, you will have the plants and Spring Hill will have the stamps which will be turned into war bonds. Spend your money so that it will do the most good.

**FREE PLANTS TO YOU** Do not overlook our offer of free plants to you (page 26).

# BEST QUALITY LAWN GRASS SEED

IT PAYS TO BUY THE BEST FOR ECONOMY AND RESULTS

You too may have a beautiful inexpensive lawn when you buy grass seed from Spring Hill. Early March to late May is the ideal time for renovating and making a new lawn. Inferior seed is costly because labor of preparation is often wasted. Spring Hill only uses highest quality seed and the difference is due to proportion or quantity of expensive seeds in each mixture. Sow 1 pound grass seed to 200 square feet. Complete planting instructions included with each shipment or order of grass seed.

## STANDARD EVERGREEN MIXTURE

Will produce a beautiful weed-free and sturdy lawn in three to four weeks. Permanent for hardy grasses predominate in ratio of four to one, considered ideal by experts. Used extensively by parks, cemeteries and golf courses. No. 4A1, 1 lb. 85¢; 5 lbs. \$3.98; 10 lbs. \$7.50; 25 lbs. \$17.50; 100 lbs. \$64.00.

## FANCY KENTUCKY BLUE GRASS

Our most dependable and hardiest easy to grow variety. Recommended for reseeding old lawns and pastures. It is economical to buy finest weed-free, high germinating seed. No. 4A2, 1 lb. 79¢; 5 lbs. \$3.69; 10 lbs. \$6.95; 25 lbs. \$16.25; 100 lbs. \$59.75.

## SPRING HILL'S SHADY LAWN MIXTURE

For areas where lawn has less than six hours of sunlight. A special blend of best shade loving grasses which grow well with little moisture, little sunlight and poor soil. No. 4A3, 1 lb. 90¢; 5 lbs. \$4.25; 10 lbs. \$8.60; 25 lbs. \$18.75; 100 lbs. \$69.00.

## DE LUXE EVERGREEN MIXTURE

Exceptionally high quality, one of the three finest mixtures in America. Highest germinating fresh crop seeds with more seeds per pound and practically no weed seed or inert matter. You cannot buy better or cheaper seed considering number of seeds per pound and quality. No. 4A4, 1 lb. 94¢; 5 lbs. \$4.45; 10 lbs. \$8.40; 25 lbs. \$20.00; 100 lbs. \$74.75.

## These 6 Plants At 1/2 Price

IF YOUR ORDER IS \$5.00 OR MORE

Small orders require extra office help, handling time, etc., therefore to induce you to order at least \$5.00 worth of plants, or more. Spring Hill makes the following outstanding values at 1/2 price. You may order any one or all six of the 1/2 price offers on this page, with order of \$5.00 or more.

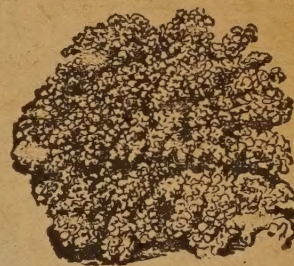

### New CL. ROSE YELLOW CLIMBER

No greater value in plants is to be found today than in this beautiful yellow climbing rose. Large semi-double flowers of golden yellow with orange shadings. # BIG VALUES IN THE BEST STRAWBERRIES

EVERBEARING GEM PICKED FROM SPRING HILL'S HIGH QUALITY NORTHERN GROWN PLANTS, OCTOBER 18

**EVERBEARING MASTADON** Extremely large, a leader in quality, size, dependability and yields for a decade. Best planted in hill culture 18 by 18 inches. Fruit 90 days after planting till freezing weather. Self-pollenizing.

**EVERBEARING GIANT GEM** A leading variety. Outstanding for size, quality and beauty of its smooth bright red fruit. Bears 90 days after planting, enjoy strawberries this Fall, plant now. Good plant maker and self-pollenizing, can be planted alone.

## NEW EVERBEARING MINNESOTA

**1166** For the second time Spring Hill offers this wonderful new everbearing strawberry. Delicious, large, firm, extra sweet berries so bright red they glow with beauty. Extra high yielding, vigorous growing, self pollenizer and good plant maker. Will yield next spring, summer and fall.  
**Everbearing Gemzata**—See description inside front cover. Prices see below.

**EVERBEARING WAYZATA** Considered the perfect strawberry, plant in hill culture 18 by 18 inches as it grows in clumps making only a few runners. Famous for size, flavor, color and yields. Highly recommended. Self-pollenizing.

THE RIGHT WAY

Do not plant too cramped, too shallow, or too deep. We show the right way.

**RED STAR** Best new late variety. Very large, firm, bright red berries, good flavor. Vigorous grower, very productive. Highly recommended.

**PREMIER** Dependable, extra early, large, high quality, heavy yielding variety. A sure bearer therefore most planted of all strawberries. Self-pollenizing.

**FAIRFAX** Another Premier cross, introduced by U. S. D. A. similar to Dorsett in size and type but darker firmer berries.

**ROBINSON** New, sensational, high yielding variety with extra large, bright cardinal red berries that retain their size to the last picking. Extra long fruiting season. Highly recommended.

**AMBROSIA** Ripens a month later than Premier. Self-pollenizing, extremely hardy and tall, maturing its high quality fruits off the ground.

**BLAKEMORE** Most planted berry in South. The most vigorous, easiest to grow and surest to yield. A colorful, firm, high quality berry.

**NEW MAJESTIC** According to our records and results Majestic is destined to be the leading variety. Plants larger than Premier with better roots and more runners. Only Premier seedling surpassing it for commercial production. Self-pollenizing.

**SENATOR DUNLAP** This grand old strain is probably the most popular variety in the Central states. Dependable, a sure bearer, tremendous yields of large high quality berries. A favorite for canning.

**HOW TO PLANT EVERGREENS**—Plant evergreens immediately upon arrival as they have resin in their sap and if the plants shrivel or dry, the sap sets, causing permanent injury. Keep from sun and air. Dig hole 8 to 10 inches larger than the ball of earth or root spread. Set evergreen 1 inch to 2 inches deeper than soil marks on the trunk of the evergreen. Fill hole half full of rich top soil, firm well, then fill hole with water. As water leaches away, fill remainder of hole.

PETER  
BOHLENDER,  
FOUNDER

EST.  
1849

## HISTORY OF OUR BUSINESS

Peter Bohlender Stayed At Home While Gold Miners Rushed West To California

In 1849, the same year in which gold was discovered in California, Peter Bohlender started working in a nursery near Dayton, Ohio. His natural love of trees and plants, his intimate knowledge of their proper planting and care, led him to the nursery business. So with the smallest of shoestring beginnings he launched his career as a nurseryman.

The buildings were small and the market was restricted to fruit trees and a few ornamental shrubs. Slowly, but surely, business improved and the nursery expanded. People around the locality of the nursery found that they could depend on Peter Bohlender's selection of plants. These people told their friends and the fame of the little nursery spread.

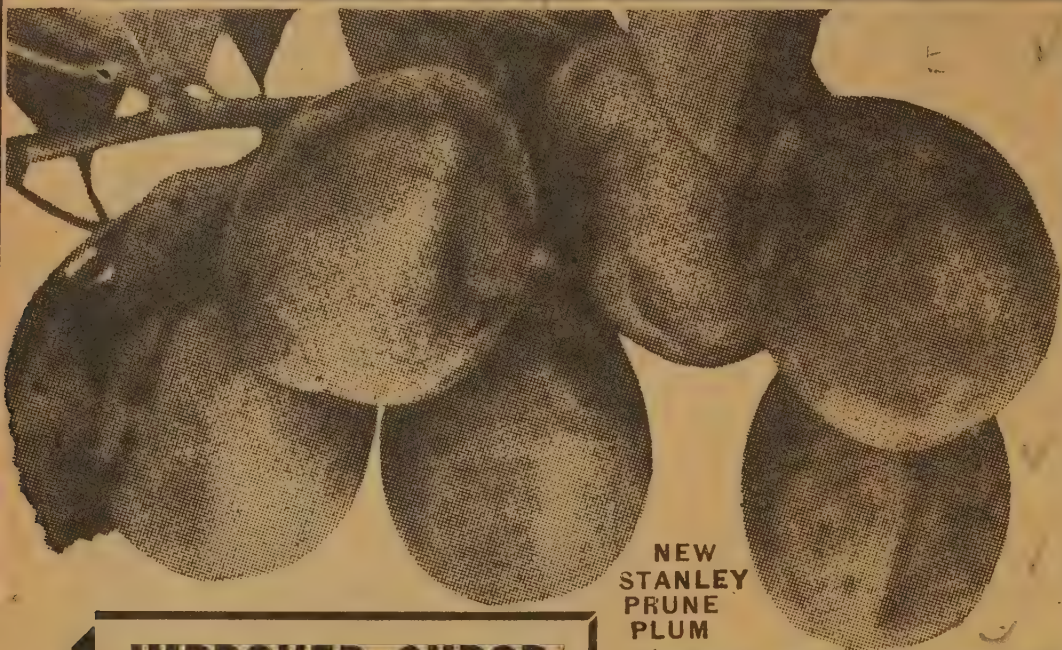

Today in 1946 the small nursery has grown until we ship hundreds of thousands of plants from coast to coast each year. Today, Peter Bohlender's grandsons, Thomas B. Kyle and Howard Kyle, the third consecutive generation of the immediate family, are sole owners and operators of the business.

We attribute our success and growth to our location in the heart of the fertile Miami River valley of Central Ohio, where we have superlative conditions for the production of the finest plants. Because of our buildings and modern methods of operations Spring Hill is TODAY able to offer better plants, better service and better values for your money.

## ANOKA

(A Noteworthy Apple)  
 This noteworthy apple, created by one of America's master plantmen, often bears fruit the first year. No waiting for those wanting fruit immediately. Hardy in all climates, this great apple has proved to be one of the very best summer apples, with large, well-formed, red, striped fruits excellent for eating and cooking. Remember—no waiting. Better order a tree now and have apples next summer. No. 12AA16 2 yr. 3-4 ft., \$1.15 each; 3 for \$2.98. No. 12A16 5-6 ft., \$1.98 each; 3 for \$5.65.

## DIRECTIONS FOR PLANTING FRUIT TREES

Trees should be planted immediately after opening package if possible. Keep roots covered with damp cloth. Do not expose to sun and air. (See cut opposite.) Dig hole large enough so that roots will not be crowded. Make separate pile of fertile top soil. Tree should be planted two inches deeper than grown in nursery. (Notice old soil mark around tree.) Put fertile top soil around roots breaking up so that there are no air pockets. Fill hole about two-thirds full pressing earth down firmly. Water well. Fill hole to top. First year a mulch of well-rotted manure or compost should be used to hold moisture and build fertility. Do not let fertilizer or manure come in contact with roots or body of tree.

DWARF QUICK BEARING

## Cherries

Two decades of plant breeding and hybridizing by Prof. N. E. Hansen of South Dakota State College have produced new improved hardy, dwarf cherries. Plant Hansen's new quick bearing cherries.

These wonderful plants have a two-fold purpose, being beautiful dwarf shrubs filled with useful wholesome fruit. Excellent planted in groups, as a hedge or screen and mixed in shrub border.

The entire plant is filled with a mass of lovely snow-white flowers early each spring. The handsome foliage is silvery-green and turns to bright red and gold in autumn. The fruit is larger than cherries but plum shaped.

Delicious to eat from bush and fine in sauce, jam and jellies. Grows 4 to 5 ft. tall and 3 to 4 ft. broad, should be planted 4 to 6 feet apart. Large fruiting age, 4 year old, 3 ft. tall, No. 14A4, \$1.50 each; 3 for \$4.20. 2 yr., 1½ ft. tall, No. 14A5, 70¢ each; 3 for \$1.95; 10 for \$5.95.

# Enjoy HOME GROWN RASPBERRIES

**GUMBERLAND** The largest of all black caps; firm and a good shipper. One of the most profitable as a market berry. Healthy and heaviest yielding dependable black raspberry. Berries are excellent for canning and preserving. The large sweet berries sell at highest market prices.

**NEW SUNRISE** An outstanding new red raspberry two weeks earlier than Latham, extremely hardy. The large fruits of good texture combined with the longer fruiting season make this high-quality variety one of the best for home and commercial plantings.

**GIANT LATHAM** Latham is extra resistant to disease and insects. Vigorous grower that yields largest crops of mammoth sized berries. Famous for quality, bright red color and absence of seeds. Very hardy growing and producing in coldest parts of Northwest. The most popular and most planted of all Red Raspberries.

**BLACK BEAUTY** Excellent new luscious variety. Succeeds extra well and very disease-resistant. Popular with commercial growers, because it yields heavily, the firm fruits stay on the plants longer and handle better.

## NEW RED GIANT EVERBEARING INDIAN SUMMER

The best Everbearing Red Raspberry. Earliest to ripen; bears a full crop in June and an immense crop in the fall. A sensation because of its size, flavor, and unusual beauty. Wonderful keeping qualities. Berries are glossy red, conical in shape, and of extra large size. The greatest all-purpose Raspberry. Big fall crops, when Raspberries are scarce. Prices see below.

**NEWBURGH** A new introduction by New York Experiment Station. Newburgh has proven very successful in all sections. Very hardy, healthy, and tall growing. Fruit very large, firm, bright red with superb flavor.

**CHIEF** Excellent scarlet hybrid of Latham, having its good qualities plus the improvements of hardiness and earliness. Use Chief for severe locations and farm gardens. Excellent variety where your plants receive little care and attention.

## CULTURAL ADVICE FOR MOST SUCCESSFUL RASPBERRY GROWING

Plant dependable, high yielding and disease resistant varieties listed on this page. Any plants that show signs of disease should be removed and burned. Plant early as possible in the spring. In order to promote strong, stocky plants pinch tops of canes, when 18 inches tall, each summer. This makes more lateral branches resulting in heavier yields. Liberal quantities of manure and high nitrogen fertilizers are very beneficial. To maintain clean thrifty plants and control anthracnose use 1 lb. dry lime and sulphur to 5 gallons of water and spray in early spring before foliage starts. Also advisable to dust foliage throughout summer with sulphur. Cultivate regularly throughout the summer checking growth in late August because of danger from winter injury.
